## **A Man Like Me**

I like neon signs and smoky old bars  
Playin my music on this old guitar  
Singing songs each night up on this stage  
Chasin' dreams, tryin to catch that break

Its kind of hard with all these places  
And new faces  
When yours is the one I want see  
It takes a woman like you  
To love a man like me

A string of lonely nights and motel rooms  
Late night phone calls say I'll be home soon  
Girl, I know I've been away too long  
I can't wait to hold you in my arms

All these nights when we're alone  
My hearts with you at home  
You give me faith to believe  
A woman like you  
Could love a man like me

New places and new faces  
When yours is the only one I need  
It takes a woman like you  
To love a man like me
