Another Night Like This

Fireworks explodin in our hearts
Tangled up in the backseat of my car
Moon shinin' through the trees
Magnolia on the evening breeze
Feelin' you against my skin
Goin' places we've never been
I wanna be there by your side
Makin love til the mornin'

Gonna need another night like this
You got somethin that I can't resist
One kiss and I never wanna let you go oh oh oh
Don't wanna waste...another minute
Don't wanna another day without you in it
You're all I want and I know
I'm gonna need another night like this

I never felt it comin' so strong
Now you got me right where I belong
We can head West out of town
And watch another sun go down

Find a perfect place to park
Slow dancin' underneath the stars
I never want this thing to end
I wanna do it all over and over

Chorus

Tonight is where it all begins
I wanna feel this thing all over and over

Chorus
