Drink You In

There you are in that dress
Lookin at you in the mirror I must confess
When I see those eyes
It makes me wanna stare at you awhile

Girl you're intoxicating
I just can't get enough
You're my habit
Gotta have it
You're my only drug
We'll turn the lights down low
Let that dress hit the floor
You're the fix
For my addiction
What are we waitin for?
You are my favorite sin
Don't want this night to end
I wanna drink you in

Ditch our plans, just stay home
Happy hour's holding you in my arms
Touch your skin, taste your lips
Yeah there's nothin like the high I get from your kiss

Chorus

Bridge:
Girl let's make this last
Every little thing about you makes my heart beat fast
You know that we both want it
So let's enjoy this moment
Can't let it pass us by
