## Headlights

Drivin' lonely miles  
Speedin' through this town tonight  
Headlights in the rain  
Tearin' through the storm outside  
Aimin' me to you

I can feel you in my arms  
I can almost taste your kiss  
Girl your shinin' bright  
So I'm gonna follow this road  
To get to you

Put the city in my rear view  
They're pointin' me towards you  
Burnin' through the black night  
Just me and these headlights

Ain't held you for so long  
So I'm not gonna turn around  
'Til you're smilin' right in front of me  
Dancin' in the glow  
Laughin when we hit the ground  
In these low beams  
I can feel you in my arms  
I can almost taste your kiss  
Can't fight it anymore  
So I'm gonna follow this road  
To get to you

This life won't get the best of me  
Gonna light the road ahead of me  
They're showin' me the way  
To a brighter day

Put the city in my rear view  
They're pointin' me towards you  
Burnin' through the black night  
Just me and these headlights
