## Hold On To The Night

Hear the drumbeat pulling you in  
You just can't control it  
Forget the future  
Forget the past  
Just got this moment

We are young  
We are free  
The choice is ours to make  
Today is gone  
Tonight is here  
Tomorrow can wait

Chorus  
All night, all night, starts now  
Lets light this up til it burns down  
Tick tock, cant stop the clock, here we go  
Ain't nothing stopping us  
From doing what we want  
Catch the beat get off your feet  
Throw your hands up cuz  
Its time, time to live it up right  
So hold on to the night

V2  
We gonna be fearless  
We won't think twice  
We got one chance  
To live this life

Lets make a toast  
Raise up that glass  
To the hours and the minutes  
That we still have

Clap your hands

Everybody dance

Chorus
