Hook It Up

I know they like to say that nice guys finish last
I'm trying to be cool about it
I see the look that you've been giving when I walk past
I've been waiting for my chance and now it's on

Hey what's your name girl?
There ain't nothing wrong
With taking this party on home

So let's Hook it Up
Gimme just a little more of what you've been giving me all night
Yeah you're the one to get it done
Tell me what you waiting for turn me on and take me for a fast ride
It's pretty obvious we're looking for the same thing
Feelin' this electricity so baby
Hook it Up, Hook it Up

I paid your tab, called a cab and its on its way
I don't wanna waste another minute
Got your hand up on my leg, like you feel the same

Cant wait to get you up against the wall
Stripping as we're makin our way down the hall
Rockin til the break of dawn

Chorus
