I Want A Story

I've turned this Chevy around too many times
I was scared to fly, always thinking twice
This time I'm not afraid
My next chapter is an empty page

Now the radios' up as I'm flying by
That old water tower, city limit sign
Not lookin back
I'm leaving those days in the past

PRECHORUS 1:

I wanna feel the ups and downs
I'm gonna show my home town

CHORUS:

I want a story
I want a story
I wanna taste every moment
Live all the passion know all the glory
I wanna feel every heartbeat
I wanna chase all of my dreams
On this road before me
I want a story

V2:

If there's one sure thing that I've learned
It's I might get lost I might get burned
But baby that's all right
Yeah ain't that just life

PRECHORUS 2:

Cause I know that I can't live
Always wondering what if

CHORUS:

BRIDGE:

Write down these dreams one word at a time

Then live em all out line by line
The ups and down the highs and lows
I want I want I want.
