

Let's Get Together

V1:

Stevie was coming from the wrong side of town
Driving west as the sun went down
Pink streak running through her bleach blonde hair
What she needs, gonna find it here

PC:

We don't need a reason
We don't need any plans
Don't need an invitation
Just show up when you can
Let's get together

V2:

Johnny took the red eye outa Amsterdam
Bobby got a half back of reds in his hand
Sally and her girls paint their eyes
What we need we gonna find tonight

PC:

CHORUS

Let's get together
Let's just get together
Let's just get together
Tonight

V3:

Now everyone got stars in their eyes
Come here baby gonna make you mine
Someday all the world will see
It's all about you and me
