## The Simple Life

Yeah I remember as kids we would run  
Front yard, through the grass of Grandma's house  
Young and free, playin' cowboys with our friends  
Just give me that simple life again

Drivin' down, that ol' country road  
Daddy's hands on the wheel of that old red Ford  
Yeah we never, never thought it would end  
Just give me that simple life again

Growin' up, we would head down to the drive in  
Holdin' hands, with our girlfriends  
Yeah, Jenny Sue, I remember her so  
Just give me that simple life again

Goin fishin, chasin fireflies in the night  
My first kiss, my first love, my best friend  
Makin' out behind the neighbor's fence  
Just give me that simple life again

Now that we're older  
We've gone our separate ways  
But in our minds  
We can go back to those days

On that ol' country road  
Daddy's hands on the wheel of that old red Ford  
Yeah we never, never thought it would end  
Just give me that simple life again  
Give me that simple life again
