## Whatever Gets You Through

Something's got you twisted up  
You're on the edge of givin' up  
Just want the pain to go away  
Wish that I could make you laugh  
It kills me when you hurt that  
You know I 'm here, you know I care

Let me be the right in whatever's goin' wrong  
I'll be your strength, when you can't hold on

Baby you can fall into me  
Gonna prove I'm all that you need  
Let me do, whatever gets you through

That mornin' sun is gonna rise  
You'll see it all in a different light, I wanna do  
Whatever whatever gets you thru

I can pour you somethin' strong  
We can talk all night long  
Or gas up and drive to ease your mind  
We don't have to say a word  
Dancin' while some candles burn  
Or if you want, we'll just make love

Let me be the right in whatever's goin' wrong  
Close your eyes I got ya, I'll be holdin' on

Chorus
